

Composing a LRGB photo of M77

Camera: SBIG-ST7-XME

Filter wheel: SBIG-CFW8

How many components do I need to compose a photo of a distant galaxy?

TIPS:

- Always focus your refractor in the GREEN channel.
- You can create flats using the T-Shirt-Method.
- Use the excellent software *CCDSOFT* of Bisque.com
- *1x1* means Binning 1x1
- *5 Min.* means an exposure of 5 minutes.
